## Experience

### UI/UX Designer

CareerRipple | June 2024 – Present

- Conducted comprehensive research and analysis, including social media, food diary, and competitor analysis of 14 competitors, to inform design decisions.
- Developed user flows, low and mid-fidelity wireframes, and a design system under 2 months to ensure consistency and enhance the user experience.
- Executed agile development framework to manage a 2-month project, resulting in on-time delivery of quality mid-fidelity wireframes.

### Project Lead

CareerRipple | June 2024 – Present

- Co-led the project team from inception to mid-fidelity design, resolving all team issues and ensuring project success.
- Developed and implemented an application process, reviewed 150+ applications, and conducted interviews to select the best team members.
- Organized and facilitated two weekly update meetings, ensuring clear communication and direction for the team.
- Collaborated with other team members to ensure quality delivery under 2 months.

### UI Designer

Luminate | August 2024 – December 2024

- Designed core user interfaces for the Android ROM, including the home screen (app grid, widgets, and brand app icons), Device Setup Wizard, Lock Screen, and initiated the Photos & Camera App design.
- Utilized Figma and FigJam to create designs and collaborate with team members via Discord.
- Boosted visibility with designs generating over 1.5M online views, including 650K from the Setup Wizard and 800K from app icons, significantly enhancing marketing outreach.
